+ (press down both) = Location setting: Choose nearest city/region for NiteLite System™

Astronomic mode (See city/region code chart below)

### 3: Operation Modes

Press the ( Mode ) button, and use the UP and DOWN button to select the mode; press ( Enter ) to confirm the selection and set mode

**“ON”** : Always on mode

**“OFF”** : Always off mode

**“Auto”**: Photocell = dusk to dawn operation mode.

When selecting the Auto Icon, the clock icon (---) and sunrise  will illuminate, press (Enter) to confirm Auto mode setting.

- Additional Auto mode setting: ON at dusk (Auto) and OFF at a specific time.
- When selecting the “Auto” mode, before you press the (Enter) to confirm, press UP / DOWN button to set clock (---)( PM/AM ) for specific OFF time (hour/min) and then press the (Enter) icon to finish the setting

**“Timer”**: Timer mode for any specific time ON and OFF setting

When selecting the Timer mode, the (Start) and clock (---) ( PM/AM ) icon illuminate, then set the ON time (hour/min), and then (End) icon illuminates to set the OFF time. Always press the (Enter) button the hours/min selected.

**“Astro”**: Astronomic timer mode with your local sunrise and sunset time. Can be used for indoors where the light levels are insufficient for photocell operation. Attention: make sure you have selected your local city/region with

“ Location” icon ) **CITY/REGION CODE SHEET BELOW**

1. Press both the UP+DOWN button together to select the “Astro” icon, then press (Enter) button. The “Astro” and “:00” icon illuminate, then press the (Enter) button again. After the sunrise icon  also illuminates, press (Enter) button to finish the Astronomic Auto ON and OFF mode setting; which is the default mode for Astro.
2. Optional ON time setting: When the “Astro” icon and “:00” illuminates, use the UP/DOWN button to set Start ON time with 10-50 minutes advanced or delayed according to actual sunset time and Press ( Enter ) button to confirm.
3. Optional Specific OFF time setting; When the clock (---) (PM/AM) icon and sunrise icon  illuminates, it's ready to set the specific END/OFF time, use UP/DOWN button to select specific time and press (Enter) to confirm the setting; Always press the (Enter) button when the hours/min selected.
